## Objective

Passionate and driven MERN stack web developer with expertise in React, JavaScript, and cutting-edge web technologies. Dedicated to crafting exceptional user experiences and leveraging innovative solutions to drive impactful web projects. Seeking an entry-level position to apply my technical prowess, collaborate with a dynamic team, and spearhead the development of cutting-edge web applications.

## Skills

- Expertise: HTML5 | CSS3 | Tailwindcss | DaisyUI | React | Firebase | MongoDB
- Comfortable: JavaScript | Bootstrap | JWT | Rest API | DevTool and Debugging | Express JS
- Familiar: Next JS | Node JS
- Tools: Netlify | Vercel | Git | Figma | Dotenv | Firebase

## Projects

### Heroic Playmates

[LiveSite](#) | [GitHub](#) | [ServerLink](#)

A Toy shop where various kind of superhero toys found. This is a react-router based website for a toy store.

#### Features:

- A react-router based project where tailwind, daisyUi is used for basic designing
- In this project, I implemented sorting system in server side based on price, user can sort data ascending and descending order by price.
- Here, I used firebase authentication system to user login system and secures user data. In this project, social login system is also included.

Technologies: Tailwind, React JS, MongoDB, Firebase

### Ruchi Bhoj

[LiveSite](#) | [GitHub](#) | [ServerLink](#)

A restaurant where any kind of Bangladeshi dishes can be found. A react-router based restaurant website.

#### Features:

- A react-router project, where I use tailwind and daisyUi framework for basic designing.
- In this project, Rest API is used for load user's data. Here, I used MongoDB to implement server-side code.
- Here, I used firebase authentication system to user login system and secures user data. In this project, social login system is also included.

Technologies: Tailwind, React JS, MongoDB, Firebase
